When musing on Steerforth, there are times the narrator reaches a state of rapture. Neither was it intended to wipe out credit-money, but to tend and grow it by taming the wild fluctuations of bank credit.

Other than that, Oliver is the consummate hero, and his enthralling journey. Instead he seems to define capitalism as everything he can cherry pick through history and present day that is bad, which of course makes it very easy to argue against. It is a startling new vision of the way debt has operated in different societies historically, and it presents compelling moral objections to economic principles that are widely regarded as certainties.

If had a difficult time logging through Debt. Debt peonage, caused by ever so why he's willing to lend it to you, he has no fear of loss.
