### **forces - How to sail downwind faster than the wind? - Physics Stack Exchange**

High-performance sailing is achieved with low forward surface resistance—encountered by catamarans, sailing hydrofoils, iceboats or land sailing craft—as the sailing craft obtains motive power with its sails or aerofoils at speeds that are often faster than the wind.

### **Blackbird (land yacht) - Wikipedia**

It isn't magic; it's just physics. And it's an idea as simple as rocket science, which in this case really breaks down to what you learned from riding.

### **Blackbird (land yacht) - Wikipedia**

It isn't magic; it's just physics. And it's an idea as simple as rocket science, which in this case really breaks down to what you learned from riding.

### **Faster Than Wind | Dundurn Press**

Blackbird is an experimental land yacht, built by Rick Cavallaro and John Borton of Sportvision, sponsored by Google and Joby Energy in association with the San Jose State University aeronautics department to demonstrate that it is possible to sail directly downwind faster than the wind.

## **Faster than Wind on Vimeo**
