The total fertility rate TFR estimates range between 3,9 and 4, In its family planning programmes, the Union should also include services to provide help for difficult pregnancies, while preventing population policy from being halted or obstructed by considerations of an exclusively religious nature; the Commission and the Member States are therefore urged, as part of their family planning policies, to implement sex education programmes which encourage the proper use of all methods of contraception which respect local cultures. Thiswillneedtobeaccomplishedonecountryatatimeandwithconstanteffor  
This will not be easy, because the dynamics of population change differ widely between the States and even more widely between local government areas, leading to significant differences in perspective. Retrieved 27 July
