Retrieved 8 February I would love to see them reappear in future novels. Justin has a major crush on Elly. And there's really no romance in this story. I really enjoyed finding the answers alongside the characters and really never felt things lagged. The book causes Valerie and Elly to cross paths and team up to stop the Jackals. There wasn't any talk about profound love so it was fine. I dunno, I guess the GF is never a part of the book in any direct way really and he did pay the price for his mistakes and just I guess overall it just wasn't really an issue for me despite my near-zero tolerance for cheating.
