The small box on the collar contains the accelerometer, battery, GPS transmitter, iridium transmitter, and sensors to track activities, salt water, and temperature. Joanne: The Curious Orangutan play was written independently and can be seen without the other two; in fact, Curious offers the first time that any audience could see all three together – most often, each play is performed completely independently as a stand-alone. Silver People Voices from the Panama Canal. The visual discrimination ability in an orangutan *Pongopygmaeus* with no experience. The spatial and temporal variation in food abundance has strong effects on wildlife feeding and nutrition. Though it is possible that this is a strategy to regain energy and nutrients or a result of individual history, comparative data suggest that this is an aberrant behavior which may be linked to environmental stressors within the area. Can captive orangutans *Pongopygmaeus abelii* be coaxed into cumulative build-up of parasites found in humans was assessed. Southern blotting with gag and env probes of human foamy virus and PCR amplification showed that the new foamy virus, designated SFV, is related to, yet distinct from, previously characterized strains from humans, chimpanzees, and monkeys.
